

Concept for hygiene protection of the Citylight Hotel GmbH

Compliance with the protection regulations for containment of the coronavirus and the associated protection of our guests are our top priority.

For this purpose, we have created the following hygiene protection concept for our company. All employees have been instructed and contractually agreed to comply.

According to the new Infection Protection Act, 3G applies in the workplace (in German: geimpft, genesen or getestet means vaccinated – from day 15 after the second vaccination with an EU approved vaccine –, recovered or tested). Unvaccinated and non-recovered employees must present up-to-date evidence of a negativ test, that is not older than 24 hours before starting work. Furthermore all vaccinated and recovered employees are tested twice a week on the company's premises. The company also supports the vaccination decision of the employees with informations.

An ongoing update accoring to the future measures of the Berlin Senate takes place regularly.

We ask all our guests on site for the compliance of the protective measures and the support of our employees during execution of the hygiene protection regulations.

The Citylight Hotel team will be glad to answer any question you may have at info@citylight-hotel.de or under **030/ 34 66 70 90**.

We look forward to welcome you as our guests in this challenging times.

Your Citylight Hotel Team

General Regulations

- The 2G rules applies. Access to the hotel is only granted for guests who fulfill the "2G-rule" (in German: geimpft or genesen means vaccinated – from day 15 after the second vaccination with an EU approved vaccine - or recovered). It is necessary to present a digital vaccination or recovery certificate and a current photo ID.

The following exceptions apply for children:

Children under 6 years of age: No test requirement and no 2G requirement

Children up to 18 years of age: Compulsory test, no 2G compulsory

German students up to 18 with a valid student ID are considered to be automatically tested during school time (outside of the holidays) and do not have to present a test certificate.

- The 2G proof must be checked and documented by the hotel staff on arrival
- All people present at the hotel must be registered. It is no longer sufficient to register only the data of the main booker, but all booked persons have to be registered. The only exceptions are babies and small children until the age of 5. The reason for the stay also has to be documented.
- Moreover each person is asked to reduce all physical social contacts to people outside of their own household to an absolute minimum.
- For unavoidable contact to persons outside of the own household, a minimum distance of 1.5 meters is to be kept.
- In the whole hotel area, with the exception of the own hotel room and when consuming of food and drinks at the table, a medical mask is to be worn by everybody older than the age of 6.
- All common hygiene regulation regarding for example sneezing and coughing must be complied with.
- When feeling any signs of sickness, an immediate isolation has to take place and a doctor has to be visited immediately. Moreover a self-test with a PoC test has to be done. If positive, a PCR test must be taken.
- The hotel staff must be informed immediately about the suspected SARS-CoV-2 infection.
- If the infection is confirmed the health authorities must be informed immediately in order to ensure accommodation of the infected person. The hotel is not allowed to accommodate an infected person anymore according to the infection protection regulations.
